Product Recycling Information

Battery Recycling

Producers, distributors, retailers and wholesaler of batteries and products containing batteries are responsible by law for their collection and recycling. Lenovo's collection and recycling obligation is handled by the Collection and Recycling of Electrical and Electronic Equipment Company or SCRELEC. Fees are paid to SCRELEC according to the weight of batteries placed on the market. Visit www.screlec.fr for more information and to find the collection point nearest you.

WEEE User Information

Users of electrical and electronic equipment (EEE) with the WEEE marking per Annex IV of the WEEE Directive must not dispose of end of life EEE as unsorted municipal waste, but use the collection framework available to them for the return, recycle, recovery of WEEE and minimize any potential effects of EEE on the environment and human health due to the presence of hazardous substances.

WEEE From Private Households (Consumers)

According to articles 13 and 14 of the decree 2005-829, Lenovo fills our collection and recycling obligations by subscribing to [Ecologic](#) eco-consortium, that has been agreed by the Ministry of Environment and Sustainable Development. This consortium is in charge of transport and treatment of these equipments as selectively collected by the local administrations. Private households should contact their local municipalities to identify collection points.

WEEE From Other than Private Households (Business)

For electrical and electronic equipment (EEE) put on the market after August 13, 2005, Lenovo has contracted with EARN to handle this qualified WEEE from business customers. Businesses should submit a request for collection and treatment by completing the form at the following website http://www.earn-service.com/lenovo/form_f.html

Asset Recovery Solutions

Small and medium-sized business customers as well as large enterprises can safely and economically dispose

of Lenovo and non-Lenovo IT equipment by contacting their Lenovo sales engineer or sending a request to environment@us.lenovo.com for a competitive quote including costs for the direct resale of assets which have retained some market value, the recovery of these assets or the destruction of assets with no market value.
